2. Mr. [REDACTED] said that he was leaving for the field very soon. Would it be possible for him to personally express our appreciation for the manual we now have to [REDACTED] Director of Training and Development and to [REDACTED], and to press at the same time for a copy of each of the new manuals as they become available. [REDACTED] was in process of preparation in March 1949 and it seems quite possible it is now available.
